

Hala Dahmane is the President and Managing Director of AZRAQ, a UAE-based marine conservation NGO. With over 15 years of experience in environmental strategy, she has led initiatives that have restored marine ecosystems, fostered corporate partnerships, and engaged communities in sustainability efforts. Under her leadership, AZRAQ has achieved significant milestones, including mangrove planting, coral restoration, and marine debris removal, earning national recognition for its contributions. A trusted advisor and speaker, Hala is dedicated to driving impactful change and inspiring collective action for ocean conservation.
